Superintendent's Highlights

The school year brought together teachers and constituents to build a Mission, Vision and Philosophy statement for the district. The committee worked throughout the year with input from all segments of the community and staff. District #58 has a workable plan that is incorporated into the daily operations of the school district.

Aberdeen school district has completed some very important projects during 97-98 school year. A major accomplishment was to have our trustees and association leaders trained in the collaborative negotiating process. Both sides have incorporated this training so the negotiations can be a win-win situation rather than having adversarial sessions.

Finally plans were made to connect all building and rooms to the Internet. We have begun that process so that by the end of this school year all classrooms and buildings will have computer capability along with television access and phones in all classrooms.

Progress Towards Meeting District Goals

1997-98 Goals

Progress

GOAL ONE

Over the past several years the District has been working on programs to increase the reading capabilities of all our students, but especially in grades K-4. During the school year we evaluated what was working and what was not. From that evaluation plans were developed to improve the system. During the summer all our K-3 teachers enrolled in a two-week course to improve their understanding and delivery of our adopted reading program. The reading curriculum was enriched and readopted. During this school year we are evaluating our progress on a weekly basis with grade and building level work sessions. Along with incorporating the new Accelerated Reading program we are beginning to see the rewards of our work in the improvement in our students renewed interest and mastery of reading.

GOAL TWO

The goal in the second area was to build curriculums that meet all mandates yet also conform to the process of improving our student's understanding of a particular discipline. Again working through a process during the entire school year our teachers and parents have constructed a working document for K-12 Social Studies and K-12 Music. The process involves the entire faculty as was input from the community. This process will continue for all curricular adoptions.
